Simplified Vision Document

What should the project accomplish?
Dog Walker is an end-to-end platform for finding and hiring dog walkers that walk your dog for you or even provide such a service.

Why is it valuable?
Finding a qualified and trustworthy Dog Walker is not as easy as it seems and requires to walk around the streets until finding one. Dog Walkers also have a hard time finding clients as they usually need to be referred by a Dog Owners trust to them.

Acceptance criteria
We expect to deploy a basic but functional application at 04/12/2019 that solves the problem of discovering and hiring Dog Walkers near the user's home location. We expect to have 2 Dog Walkers and 4 Dog Owners kind of users that make in total 4 transactions From this, we want to receive feedback from 3 users.
